03

the box

The Cube Huddle's sleek, timeless design makes it a suitable addition to any space. Because it is not anchored to the existing floor, it is easy to move when necessary. A wide choice of fabrics is available for the wall design, or you could elect to incorporate your own branding. The Cube can also be equipped to your specifications with a whiteboard, TV preparation, or additional electrical facilities.

Variable in use

Flexible in design

Cube Huddle

Composition

Two sides consist of acoustic walls based on 80mm recycled aluminium in accordance with profile and in accordance with EN-486.

Glass

Front and rear side consist of clear laminated glass with an 8mm tempered-glass door on one side.

Filling

Inside equipped with a 19mm air gap and 30mm of absorbing material.
Outside equipped with 15mm sheep's wool.

Sound absorption

Sound absorption coefficient α_w 0.60 per side (NEN-EN-ISO 354).

Electricity

1x incorporated double wall socket per room.
Optional: wall socket can be replaced by two RH45 Cat6 data connections.
Optional: Inside can be equipped with TV preparation, including some wall sockets and cable conduit \varnothing 45mm.

Lighting

Including light source and 2700k spots.

Air circulation

The ceiling of the Cube is equipped with both air intake and air exhaust.

Upholstery

Wide choice for the design of the acoustic walls. Kvadrat upholstery, own branding with Createx Visual, Whiteboards.

A list of all fabric colours can be found in our Material List.

Createx Visual: upholstery with your own design, image or corporate identity. 100% polyester with fire-retardant coating (achieved DIN EN 13501-1).

A variety of upholsteries is available on request, please contact us for more information.

Optional

- Whiteboard

Fire retardant

- Wool: for the combustion of wool, 25.2% oxygen is needed. The air we breathe contains only 21% oxygen on average, which makes the material flame extinguishing. The flash point of wool can only be achieved at a temperature of circa 580°C.
- Createx achieves DIN EN 13501-1
