Work in the rhythm of life

Artificial light is a necessity in many indoor environment. But what if such lighting would go beyond just delivering light? What if its design would bring hominess and its performance would feed your natural biorhythm to keep you connected to the rhythm of day? Our Light Dots Sixpack is a timeless modern classic chandelier that promotes well-being, mood, and health by delivering a natural daylight pattern in indoor areas. Lighting to create a place for the rhythm of life.
