Cube Booth

Designed for **private conversations**

Cube Booth creates a quiet, comfortable space for private phone and video calls. Acoustic performance, fresh air circulation and integrated lighting support focused conversations within the open workplace.

Designed as part of the interior
Cube Booth integrates seamlessly into the architecture and interior, enhancing the workspace both visually and acoustically.

Optimised for private calls
Designed specifically for focused phone and video conversations, Cube Booth minimises distractions while providing a comfortable and professional environment for every call.

Part of the overall workspace
By moving conversations into dedicated acoustic spaces, Cube Booth reduces noise throughout the office and helps create a calmer, more productive working environment.
