Cube One

Designed for **focused conversations**

Cube One creates a quiet, comfortable space for private calls, video meetings and focused work. Acoustic performance, fresh air circulation and integrated lighting support concentration within the open workplace.

Designed as part of the interior
Cube One integrates seamlessly into the architecture and interior, enhancing the workspace both visually and acoustically.

Optimised for individual focus
Designed for focused phone and video conversations, Cube One minimises distractions and creates a comfortable space for private communication and individual focus.

Part of the overall workspace
By creating dedicated focus spaces, Cube One reduces distractions throughout the office and supports a healthier balance between collaboration and individual work.
